Participants' Comments:

I would fully recommend this course... (It) is a journey of self-awareness, learning new skills, life skills, hope and positive affirmation. I am calmer, more aware, reflect more, more non-judgemental. My three children have benefitted greatly. To quote one of my children "Mum, you are different since you did this course. You listen more and you seem to understand more."

MARY GILES - RGN, RM, MOTHER, PARENT COACH

... an amazingly powerful way of working with parents.
